

## Traffic Analyst

With your traffic engineering knowledge, why not join our multi-disciplinary team and contribute to the safety and efficiency of Ontario's provincial highway system?

### **In this entry-level position with opportunities for growth, you will:**

- provide traffic engineering expertise to ensure safe operations of Ontario's highways
- analyze traffic operations, geometric road designs, traffic characteristics, traffic signal design and operations and traffic regulations
- review and provide recommendations for specific projects in areas such as pre-contract engineering/construction, traffic operations/analysis, traffic signals, planning and data collection/management
- work with internal and external partners to conduct traffic operation studies, investigations, projects, data collection and analysis
- provide technical input to resolve safety and operational issues on the highway/road networks

**Location: 615 James Street South, Thunder Bay, Ontario**

### **What we are looking for:**

#### Traffic Knowledge:

- you have knowledge of traffic engineering theory, practices and principles
- you have general knowledge of highway design, construction and maintenance procedures
- you have general knowledge of the *Highway Traffic Act* and other provincial highway acts and legislation

#### Applied Skills:

- you have excellent problem-solving, analytical and judgment skills
- you have organizational, project management and decision-making skills
- you have strong presentation, interpersonal and communication skills
- you are proficient with computer applications (word processing, spreadsheet and database) and with traffic engineering software

#### Mandatory:

- a minimum of a valid Class G driver's licence or the equivalent as recognized by the Province of Ontario

**Salary range:** \$1,015.26 - \$1,166.77 per week

Please apply online, by **October 27, 2011**, by visiting [www.ontario.ca/careers](http://www.ontario.ca/careers) and entering **Job ID 39540** in the Job ID search field.
